Hi Debbie.

Dave, Alice and I came up with a short list of people to give presentations for next week's meeting, based on who we thought would be available on relatively quick notice. The game plan at the moment is to have Lisa talk about what was done as part of the dredging/decon pilot and lessons learned, Dave talk about the Hudson project, and Doug Pabst talk about the Newark Bay CDF and some of his broader dredging/disposal experiences in the Harbor in general. Hope that helps. Please let me know if you have any questions on that.
Elizabeth

Subject: Passaic River CAG Technical Presentators

Hi Everyone

I cannot locate my notes from our call, but I think EPA folks were going to brainstorm on potential folks to be on a technical panel for the next CAG meeting...I am trying to focus the CAG Technical Committee, but did you have any thoughts? Was the general thought we would ask Lisa Baron to at least present on the in-situ work and decon pilots?

Thanks, Debbie
